Ernest Everett Just Papers
Collection 125-1 to 125-28

Prepared & Revised by:
Karen L. Jefferson
June 1980

Manuscript Division

Scope Note

Ernest Everett Just, an internationally renowned zoologist, taught at Howard University from 1907-1941, becoming the head of the department of zoology in 1912. The Ernest E. Just Papers total 131 linear feet, spanning the period 1910 -1940. The majority of the papers consist of correspondence, and drafts and notes of writings and research by Just. There are also some personal materials including biographical data, financial papers, memorabilia and a few photographs. The papers also contain a collection of published reprints of scientific articles by Just and some of his associates. Some of the reprints are autographed.

The correspondence includes many of Just's fellow scientists such as Helgo W. Culemann, Frank R. Lillie, Franz Schrader, Ralph Lillie, Jacques Loeb, and L.V. Heilbrunn, as well as major figures of Howard University such as Mordecai W. Johnson, E.P. Davis, and Charles H. Thompson. Dr. Just was fluent in several languages and the correspondence is written in English, German, French, and Italian.

The notes and drafts include notebooks, typescripts with corrections, as well as handwritten notes. There are also several drafts of chapters from Just's book, *The Biology of the Cell Surface*.

Biographical Sketch

1883 August 14	Born in Charleston, South Carolina, son of Charles Frazier and Mary Matthews Just.
1907	Graduated as the only magna cum laude of the class of 1907, Dartmouth College.
1907-1941	Taught at Howard University: 1907 taught English 1908 taught Biology 1912-1920 Professor and Head of Department of Physiology At the medical school 1912-1941 Head of the Department of Zoology.
1908	Organized "The College Dramatic Club", probably the first such dramatic group at Howard University.
1909-1930	Researched at the Marine Biological Laboratory, Wood's Hole, Mass.
1911	One of the four founders and an adviser of the Omega Psi Phi Fraternity founded at Howard University.
1912	Married Ethel Highwarden (children: Margaret, Maribel, and Highwarden). Published his first paper, "The Relation of the First Cleavage to the Entrance Point of the Sperm"
1915	First recipient of the NAACP Spingarn Medal.
1916 June 16	Received the degree of Doctor of Philosophy, magna cum laude, from the University of Chicago.
1920-33	Received a grant from the National Research Council (the first Negro scientist to receive this grant). Receive grants for himself and Howard University from the Rosenwald Foundation.
1924	Co-authored General Cytology with Frank R. Lillie.
1930	Served as the Vice-President of the American Society of Zoologists. Special lecturer at the Congress of Zoologists, Padua, Italy. Guest Professor at the Kaiser-Wilhelm Institute fuer Biologie, Berlin-Dahlem, the first American to be invited to this Center.

Biographical Sketch

1939	Published Basic Methods for Experiments in Marine Animals; and The Biology of the Cell Surface.
	Married Hedwig Schnetzler
1941 October 27	Died in Washington, D.C.

Source: Biographical data, Ernest E. Just Papers.

Series Description

Series A Personal Papers

Box 125-1 Included are biographical data, financial papers, photographs and memorabilia. Memorabilia includes programs, invitations, stationary, post cards and calling cards (one card of Just). Biographical data includes information collected by the Moorland-Spingarn Research Center about Just.

Series B Correspondence

Box 125-2 Primarily E.E. Just correspondence from ca.1910 to 1940, also includes
to Box 125-9 correspondence between correspondents other than Just. "Other correspondents" usually reflect copies of letters sent to Just relating to his activities at Howard University. The arrangement includes letters of partial text partial names and initials, illegible names and unsigned correspondence.

Series C Howard University

Box 125-10 Materials generated as related to E.E. Just as head of the department of Zoology.
to Box 125-11 Primarily reports (some drafts) of the department, receipts, and purchase orders, also includes schedules and reports relating to grants received from the Carnegie Corporation and the Julius Rosenwald Fund.

Series D Published Writings by E.E. Just

Box 125-11 Reprints of published scientific articles written by Just, arranged alphabetically
to Box 125-12 by title.

Series E Drafts and Notes

Box 125-12 Includes typescripts with corrections and handwritten drafts and notebooks by Just.
to Box 125-23 Titled typescripts are arranged alphabetically by title. Untitled drafts and notes are not arranged. These materials were simply transferred from the original folder to acid free folders, maintaining the order and fullness of the original folder. Folders labeled "notes- various pages" are items that were distributed throughout the collection and were not found in one folder. The drafts include chapters of Just's book, The Biology of the Cell Surface. The materials in folders 433 to 442 were originally in one folder labeled "Polarity of the Egg." This material was distributed into several folders for easier access. NO REPRODUCTION OF MATERIALS IN "SERIES E" IS PERMITTED.

Series Description

Series F Published Writings by Others

Box 125-23 Primarily published reprints of scientific writings. Many of the authors were associated with Just and some have autographed their works. The articles appear to have been part of a reference file. The arrangement seems to be by subject, then alphabetical. Articles not labeled were arranged alphabetically by authors.
